TRAIAC

Traiac automation is the leading technological solution provider company in India with proven experience in Industrial Automation, Remote Telemetry using SCADA, Calibration, Electrical panel designing over the last 5 years. We are focusing on safe reliable, intelligent and economical solutions to our customers without any compromise in its quality.

The company is driven by principles providing an environment for change, innovation, creativity, challenge and achievement. We emphasis on providing High End Design and Engineering Solutions to customers across all the industries.

Industrial Automation:

- Programmable Logic Controller (PLC)
- Supervisory Control and Data Acquisition (SCADA)
- Variable Frequency Drive (VFD)
- Human Machine Interface (HMI)
- Distributed Control System (DCS)
- Industrial Internet of Things (IIOT)
- Servo drive

Building Management System (BMS):

- Direct Digital Control (DDC)
- Heat Ventilation and Air Conditioning (HVAC)
- Facility Management (FM)
- fire alarm control panel (FACP)
- Access Control
- Energy Management

Remote Telemetry System

- Supervisory Control and Data Acquisition (SCADA)
- Over GSM Communication
- LAN / WAN Communication
- LABVIEW

Conveyor System

- Food Sorting Conveyor
- In Line production and checking conveyor
- Modular Belt Conveyors
- Slat Conveyors
- Filling Unit Conveyors
- Truck Loading conveyor
